

Heavy equipment Repair Activity 3-19-2020

To all Heavy equipment students:

We have just about finished the lessons on differentials; the last portion is differential maintenance, which you will find in the Chapter 48 of CDX online and textbook. I plan to start the next lesson on wheel hubs; this is why I have given you the assignments for Chapter 24. Follow the directions below and if you need help or have a question please call the school 724-282-0735 or e-mail me Rearickw@butlertec.us.

Thank you and be well, stay home!

Mr. Rearick

Read Chapter 24 in the eBook found in CDX either online or on hard copy found in the school office. Then answer the pre-test questions. Locate the definitions of the terms for chapter 24 found on a separate document.
